

Scottish Wild Harvests Association

The Scottish Wild Harvests Association was formed following a series of workshops and meetings run by Reforesting Scotland. People working in wild harvest businesses decided it would be in their interest to be part of a supportive group.

The aims of the association are to:

- ◆ provide information about wild harvesting in Scotland
- ◆ facilitate co-operation between members
- ◆ provide marketing opportunities to members
- ◆ raise public awareness of the Scottish wild harvests sector
- ◆ represent the views of the group to public bodies, as informed by the members
- ◆ promote sustainable harvesting

Full membership is open to businesses, voluntary groups and individuals in Scotland who produce sustainable, ethical products or services based on Scottish wild materials. Full membership provides full voting rights at AGM. Other benefits such as directory listings and joint marketing activities will be developed for the benefit of full members.

Associate membership is open to all organisations and individuals who support the aims and objectives of the Association. Associate members are a vital part of developing our collective knowledge and raising awareness of wild harvesting in Scotland, and they have a full role in many of the Association's activities.
